

MEKOL

LVT+

High-quality dispersion fibre-reinforced adhesive

It is used for gluing:

- LVT - Luxury vinyl tiles
- rubber
- linoleum

on levelled cement floors or other porous surfaces. It is suitable for floor heating systems as well as for laying the coverings to the walls.

Benefits and properties:

- **neutral odour**, solvent free
- **easy to spread** by using notched trowel
- **high initial grip** for quick adhesion to all coverings
- **long open time** enables laying the coverings up to 45 minutes after spreading the adhesive
- **very high final strength** provides long-term use also of heavy traffic floors
- **hydrophobic joints** allow daily cleaning without opening of edges
- **resistant joints** to elevated temperatures and migration of plasticizers, which increases dimensional stability of the coverings and reduces the occurrences of the slots

Spread quantity:

- 200 – 300 g/m² using notched trowel A1
- 300 – 350 g/m² using notched trowel A2

Packing:

- 12 kg plastic vessel (for approx. 40 m²)
- 6 kg plastic vessel (for approx. 20 m²)

For more information, please call **+386 5 73 12 326** or visit our web page www.mitol.si.

Dispersion fibre-reinforced adhesive

Easy to spread, high initial grip and long open time

Very high final strength and resistance of floor coverings
